

Vision

*My vision is to help our patients
Breathe, Live & add Life to their years*

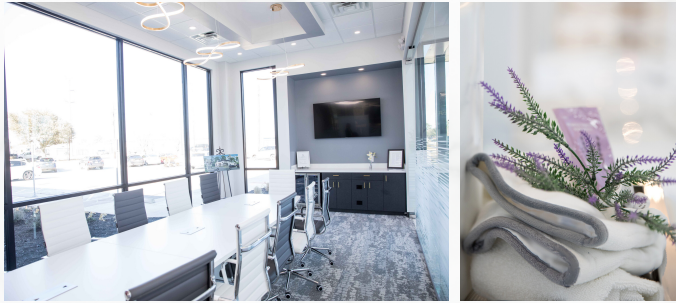

Philosophy

My philosophy foundation embodies a healthy airway, diagnosis and compliance as essential pillars to wellness. Compromises in these areas can lead to a variety of health problems including breathing & sleep disorders and many more.

Dr. Michael J. Landry, DDS, D.ABDSM

Several years ago, I began assisting my patients with snoring and sleep apnea and their struggles with their CPAP compliance. Through advanced education and successfully treating patients, I decided to dedicate the future of my practice to Dental Sleep Medicine. Working closely with a patient's medical team has increased my patient's success. I am Board Certified by The American Board of Dental Sleep Medicine. I fabricate custom oral appliances that are FDA approved to treat snoring and obstructive sleep apnea. I have been in practice in Houston since 1981.

CPAP Intolerant

Snoring

A Message to Physicians

If your patients have tried CPAP (Continuous Positive Airway Pressure) and found it difficult to wear while sleeping, a custom appliance could be the solution for them to consider. I use the latest modern technology to help Houston residents identify and treat sleep apnea. In coordination with you their medical provider, we can have a team approach to patient compliance and treating sleep apnea.

Custom made oral devices can help eliminate morning headaches, sleepy afternoons, and snoring at night.

I work with patients on an individual basis and offer options based on their unique circumstances and anatomy. Sharing medical history and symptoms allows me to provide viable options.

My team will coordinate medical insurance for our side. We are in-network with several medical insurance providers and are in network with Medicare.

For patient convenience, I offer online scheduling, online chat, third party financing and online forms.

Refer your patient to me with the easily downloadable prescription form or request one to be customized with your practice credentials.

Dr. Michael J. Landry
